

Summary

Experienced software developer with 2+ years of expertise in Java back-end development. Strong in requirements analysis, system study, design, implementation, testing, and documentation. Good exposure to Java, Spring-Core, Spring Boot, JDBC, Rest API, Kafka, Docker, Jenkins, CICD and Redis.

Work Experience

NCDEX e Markets Ltd.

Back-end Developer - Technology

Jan2022 – Present

Nagpur, India

- I work as Java developer at NCDEX e Markets Ltd where my work is to develop and maintain trading services for e-marketing trading platform.
- Optimize E-Auctions platform to efficiently source best prices for agri-commodities, streamlining the trading process for all stakeholders using Spring boot, kafka, Redis and PostgreSQL.
- Utilize Git for effective collaboration, ensuring a seamless and user-friendly experience in agri-commodity trading.

Technical skills

Technologies : Java, Spring-Core, Spring Boot, JDBC, Rest API, Kafka, Docker, CICD and Redis

RDBMS : PostgreSQL

Development Tools : Maven

IDE : STS, eclipse, IntelliJ

Deployment Tools : Git, Docker, Jenkins

Projects

Krishivedh

Java, Spring boot, Kafka, Rest Api, Rest template, PostgreSQL

Jan2023- Present

- Developed Krishivedh within the spot exchange, enhancing seller-initiated offers and buyer-initiated requests for commodities. Ensured a smooth user experience on web and android platforms.
- Designed the commodity trading interface Krishivedh, improving spot exchange efficiency for seller/buyer-initiated processes on web and android.

DigiELV Service

Java, Spring Boot, Kafka, Rest Api, Rest template, PostgreSQL

March2023-Present

- Developed ELV Service within the spot exchange, enhancing seller-initiated offers and buyer-initiated re-requests for Scrap. This platform is basically **Authorized Certificate of Deposit Trade Platform** used for the trade of CD of Scraped vehicles.

eAuction

Java, Spring Boot, Kafka, PostgreSQL, Redis

July2022- Dec2022

- Working on the E-Auctions platform revamp, I'm streamlining agri-commodity trading by optimizing functionality and enhancing price discovery from potential bidders for improved efficiency.

Education

Bachelor of Engineering

ETC Engineering : CGPA 8.21/10

Yeshwantrao Chavan College of Engineering, Nagpur

Aug 2018 – July 2022
